

Authority Monitoring Report

1 April 2022 - 31 March 2023

Erratum

The following amendment has been made since the original publication date (changes in bold):

Page 15, second paragraph:

“At the close of the seventh base period ending 30 October 2022, there were 98 individuals recorded on the Council’s self-build register of which 12 were added during the 12-month period (ending 30 October 2022). Between the end of the sixth base period, ending 30 October 2021, and the end of the seventh base period, ending 30 October 2022, planning permission was granted for ~~28~~ **25** single residential units, including 16 provided through the conversion of existing buildings.”

Housing

Headline

In 2022 the mid-year population estimate for South Derbyshire stood at 111,133. Since the start of the Plan period in 2011 there has been **an increase** in the District's population of **16,522** people.

The District Council's 2016 Local Plan Housing Target is 742 homes to be built per annum between 2011-2028. As set by the standard methodology South Derbyshire's housing requirement is 538 homes per year, going up to 742 in order to meet some of Derby City's unmet housing need.

In the 2022/23 monitoring period there were 1125 (**gross**) completions. However, once losses in the period are taken into account, a total of **1118** homes (net) were built. Since 2011, **9,336** homes have been built against a requirement of **8904**.

Affordable housing completions for the period 2022/23 were 132. This is a reduction from the number recorded in the 2021/22 period when **156** affordable homes were completed. **11.7% of homes completed in the period were classed as affordable.** In 2022 **median house prices were 7.21 times median (gross) annual workplace earnings.** A decrease from 7.68 times earnings in 2021 indicating that homes have become more affordable in the monitoring period¹.

A total of 12 individuals were added to the District Council's self-build register during the seventh base period (31 October 2021 to 30 October 2022). 14 individuals were added to the register during the sixth base period.

¹ House price to workplace based earnings ratios can be found on the following webpage:

<https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoworkplacebasedearningslowerquartileandmedian>

Employment

The total industrial and business land need outside the Derby Urban Area within South Derbyshire between 2011 - 2028 is **47.27ha**. On 31 March 2023, **the amount of new land developed since 1 April 2011 was 46.98**, with a further **21.96ha under construction** at the time of the survey. **A further 43.21ha had planning consent and 6.71ha did not yet have planning consent but was allocated for industrial and business development** in the Local Plan Part 1.

Net additional floor space delivered in the monitoring period was **22,469 sqm**.

Retail

A total of 14 retail, office and leisure units were recorded as vacant in Swadlincote Town Centre during the survey in 2022. **The vacancy rate for the retail, leisure and office uses in the town centre is 7.48% by number of units, or 4.68% if measured as a proportion of floor space.**

No new local centres were completed with the monitoring period. Proposed local centres on strategic sites at New House Farm, Boulton Moor, Wragley Way and Drakelow Park had not been implemented as of 31 March 2023.

Regeneration

The Brownfield Land Register submission for 2022 comprised 17 sites with a total area of 81.58 ha.

26.7% of housing delivered in the monitoring period was on previously developed land, whilst 89.95% of employment floor space was delivered on previously developed sites.

Infrastructure

Local infrastructure projects delivered in the monitoring period:

Cadley Urban Park was completed during the monitoring period.

Plan Preparation

Plans and Policy Documents

The Local Development Scheme sets out the timetable for the preparation of planning policy documents. The latest version was published in May 2022 (LDS 10) and can be viewed on the Council's website [here](#). The LDS will be reviewed before the submission of any future Local Plan.

Local Plan Review

South Derbyshire District Council has begun the process of reviewing its Local Plan through evidence gathering. As part of this the Council is undertaking a Strategic Housing and Economic Land Availability Assessment (SHELAA). Assessments of submitted sites are available to view on the Council's website [here](#). An Issues and Options document was published for consultation in October 2022 and a draft Local Plan is being prepared for consultation during 2024. It is intended that it should be Submitted to the Secretary of State for Examination by June 2025. The latest consultation document from the ongoing review is available [here](#).

The Local Plan Part 1 (LP1)

This document, adopted by the Council on 13 June 2016, forms the strategic part of the Council's Local Plan. It contains allocations for strategic housing and employment sites as well as a range of thematic spatial policies in respect of housing, employment, sustainable development, the built and natural environment and infrastructure. The Plan is available to view on the Council's website [here](#).

The Local Plan Part 2 (LP2)

This document was adopted by the Council on 2 November 2017 in accordance with LDS8. It sets out the location of 14 non-strategic housing sites allocated within the District, defines settlement boundaries and sets out a range of thematic policies on topics such as heritage, retail, local green spaces, and development in the countryside. It is available to view on the Council's website [here](#).

Local Green Spaces Plan

This document was adopted by the Council on 24 September 2020 in accordance with LDS9. The Local Green Spaces Plan designates areas of land that are of particular value to the local community, for protection from most forms of development. The Plan will be used to guide development, together with the rest of the development plan, through the determination of planning applications in the District.

Local Green Spaces can also be designated through Neighbourhood Development Plans and the relevant local green space policies in the development plan also apply to spaces designated in this way.

Supplementary Planning Documents and Development Plan Documents

Design Guide and Affordable Housing Supplementary Planning Documents (SPDs) were adopted in November 2017. The Design Guide SPD incorporates car parking and open space and facilities' standards, previously proposed as separate documents.

- A Gypsy and Traveller Site Allocations DPD: Between 28 August and 2 October 2019 the District Council consulted upon the Sustainability Appraisal Scoping Report for the Gypsy and Traveller Site Allocations DPD. An up-to-date assessment of need is to be undertaken prior to the commencement of the Gypsy and Traveller Site Allocations DPD. The updated GTAA is expected to be published in early 2024.
- An SPD on Greenways: No firm dates have been set for consultation or adoption. The District Council continues to liaise with Derbyshire County Council with a view to progressing the document.
- A Planning Obligations SPD: Between 20 May and 27 June 2022, the District Council consulted on a Draft Planning Obligations SPD in accordance with Regulation 13 of the Town and Country (Local Planning) (England) Regulations 2012. The representations that have been received are currently being considered prior to any amendments been made as required.

Neighbourhood Development Plans

Neighbourhood Development Plans (NDPs) currently in production or made are as follows:

- **Repton NDP:** Following the submission of the Plan to the Council in January 2019 and the receipt of the Examiner's report in July 2019, The Parish of Repton Neighbourhood Development Plan 2016 – 2028 went to referendum on 14 November 2019. The referendum posed the question: *'Do you want South Derbyshire District Council to use the Parish of Repton Neighbourhood Development Plan to help it decide planning applications in the Repton Neighbourhood Area?'*. The outcome of the referendum was a 'yes' vote, with 565 out of 586 persons that voted, voting in favour of the Plan'. The Parish of Repton Neighbourhood Plan was formally made on 6 January 2020. More information is available on the Repton Neighbourhood Plan website at http://www.reptonvillage.org.uk/n_p/np_home.html.
- **Melbourne NDP:** Public consultation in accordance with Regulation 16 of the Neighbourhood Planning Regulations 2012 was undertaken on the Draft Melbourne Neighbourhood Development Plan for six weeks between 8 October 2021 and 19 November 2021. Since this AMR monitoring period, the Plan has progressed through the examination and referendum stage and has been proceeded to be made. More information on the Melbourne Neighbourhood Plan is available on the [Council's website](https://www.melbourneparishcouncil.gov.uk/) and at <https://www.melbourneparishcouncil.gov.uk/>
- **Hilton NDP:** An area comprising the Parishes of Hilton, Marston on Dove and Hoon has been designated as a Neighbourhood Plan Area. Hilton Parish Council undertook the Regulation 14 consultation from 28 October 2019 to 9 December 2019. The Plan was submitted to the Council in May 2020 and the Regulation 16 consultation undertaken, which closed on 19 October 2020. The examination commenced within the monitoring period and the Examiner's Report received outside of it, on 26 May 2021. The Plan was formally made on 4 November 2021 and is available on the [Council's website](#).
- **Willington NDP:** An area comprising the Parish of Willington has been designated as a Neighbourhood Plan Area.
- **Etwall NDP:** An area comprising the Parish of Etwall has been designated as a Neighbourhood Plan Area.
- **Findern NDP:** An area comprising the Parish of Findern has been designated as a Neighbourhood Plan Area.

Population

Census data indicates that the District's population has increased by 13452 people or 14.2% since the start of the Plan period, as shown in Table 1, below:

Table 1: 2011 and 2021 Census Population data

Year	Total Resident Population
2011 Census	94,611
2021 Census	107,200
2022 mid-year population estimate	111,133

Available population forecasts from the Office of National Statistics (ONS) for the District indicate that the population will continue to grow rapidly, but at a steadily falling rate as time progresses. The following table shows 2018 sub-national population projections for South Derbyshire, although it is important to note that these forecasts are likely to be revised downward slightly in the near future on the basis of the newly released 2021 Census data.

Table 2: Mid-year population forecasts for South Derbyshire 2023-2028

Year	Population Forecasts ²
2023	113,257
2024	114,819
2025	116,281
2026	117,697
2027	119,043
2028	120,342

Housing

In accordance with the Town and Country Planning (Local Planning) (England) Regulations 2012, councils are required to report on the housing delivery that has taken place during the past monitoring year, which in this case is the period from 1 April 2022 until 31 March 2023.

Residential land supply is monitored annually in South Derbyshire with full site surveys around 1 April each year, in accordance with a County-wide protocol. The use of a database linked to GIS enables planning permissions and progress on sites to be tracked on a consistent basis across Derbyshire. Information is also collected on the development of affordable housing by tenure as well as data on house sizes and development densities on wholly completed sites.

Housing Requirement

The agreed and examined housing target from South Derbyshire's Local Plan Examination is a Housing Market Area (HMA) requirement from 2011 to 2028 of 33,388 dwellings of which 12,618 dwellings is the housing requirement for South Derbyshire. This figure consists of the housing need for South Derbyshire which is 9,605 dwellings together with a share of the housing need that Derby is unable to accommodate, 3,013 dwellings. **Based on a requirement of 12,618 the annualised housing requirement for the District is 742 dwellings.**

² Population forecasts based on ONS 2018-based Subnational population projections for South Derbyshire [Population projections for local authorities: Table 2 - Office for National Statistics](#)

Housing Supply

The net number of completed dwellings from the start of the Plan period in 2011 can be seen in the Table 3 below.

Table 3: Net Housing delivery since the start of the Plan period

Monitoring Period	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23
Number	378	274	385	420	569	820	921	1218	1285	1029	919	1118
On previously developed land (%)	38	32	26	33	12	14	11	12	13	13	15	27

As identified in Table 3 the completions from the previous nine years demonstrate the housing target of 742 has been met seven times since the beginning of the plan period. Delivery increased following the adoption of the Local Plan Parts 1 and 2. In total 9,336 homes have been completed within the Plan period up to the 31 March 2023. This indicates a surplus of 432 homes over the Plan period to date. The Council expects to continue to deliver high levels of growth over the next five years. Details regarding the Council's five-year land supply are set out in the Housing Position Paper included at Appendix B.

Completions on Previously Developed (Brownfield) Land

Of the 1118 dwellings (net completions) that were completed within the District in 2022/23, 27% were on previously developed land. As can be seen from Table 3, completions on previously developed land have generally been lower since the early part of the Plan period, but have risen significantly in the past year partly owing to increased delivery from the former Drakelow Power Station site. The National Planning Policy Framework encourages the use of brownfield sites but does not set a national target. The high level of greenfield development in South Derbyshire is a result of the high level of housing growth required and lack of availability of previously developed land. Further information on previously developed land is provided in the section on the Brownfield Land Register.

Local Plan Allocations

The Adopted Part 1 and Part 2 Local Plans include 32 allocations ranging in size from 10 dwellings to 2,239 dwellings. The Local Plan Part 1 includes 18 strategic allocations which will deliver around 12,700 homes (although a number of sites will not be fully built out by the end of the Plan period); the Local Plan Part 2 includes 14 non-strategic allocations which cumulatively will deliver at least 600 dwellings. Many of these allocations benefit from planning consent and are currently under construction.

Remaining Supply

- **Sites with Planning Permission:** Large sites with full or outline planning permission (including those with a Council resolution to approve pending the completion of legal agreements), have remaining capacity for a total of 5657 dwellings.
- **Windfall estimates:** An allowance has been included of 41 dwellings per year based on annual average completions on unallocated with planning permission for ten dwellings or more over the past five years.
- **Small Sites:** There are 375 dwellings with planning permission on small sites.
- **Losses:** An allowance for 12 dwelling losses per annum has been included in the trajectory. This figure is based on previous rates of losses.

It is expected that 3661 dwellings on large sites (with planning permission) and 314 dwellings on small site sites (with planning permission) will contribute to the housing land supply to 2028. At 1 April 2023, 727 dwellings were under construction.

For further information on large sites with planning permission please view the Housing Position Paper at Appendix B.

Affordable Housing Completions

The number of affordable housing completions is monitored alongside general market housing completions. Since the Local Plan base date, April 2011, 628 social rented homes, 334 intermediate homes, 639 affordable rented homes and 26 discount low cost homes have been completed. The total number of affordable homes completed in the 2022/23 monitoring period was 132, as set out in Table 4 below.

Table 4: Gross Affordable Housing Completions 2022/23

Social Rented Homes	Shared Ownership	Affordable Rented Homes	Affordable Homes Total
11	22	99	132

Dwelling Type Monitoring

Completions are recorded on a site basis. Table 5 below shows the numbers and percentages of completions in 2022/23 categorised by type of dwelling and number of bedrooms.

There was an increase in the number of four bed houses (381 completions) in comparison with the previous year (301 completions) and bungalows (30 completions) in comparison with the previous year (15 completions). There was a decrease in the number of flats (25 completions) compared to last year (37 completions).

Table 5: Gross Completions by Dwelling Type and Size

Dwelling Type	1 Bed	% 1 Bed	2 Bed	% 2 Bed	3 Bed	% 3 Bed	4 Bed	5+ Bed	Total	Dwelling Type %
Bungalow	0	0	16	53.3	11	36.7	3	0	30	2.7
Flat or Apartment or Maisonette	18	72.0	7	28.0	0	0.0	0	0	25	2.2
House	9	0.8	147	13.7	473	44.2	381	60	1070	95.1
Total (gross)	27	2.4	170	15.1	484	43	384	60	1125	

Gypsy and Travellers

A Gypsy and Traveller Accommodation Assessment (GTAA) covering Derbyshire, the Peak District National Park and East Staffordshire was jointly commissioned and subsequently published in June 2015. This study identified a need for South Derbyshire of 38 new pitches over the period 1 April 2014 – 31 March 2034, of which 14 pitches were to be delivered in the first five years. Beyond March 2019 the identified need for new pitches for each five-year period is seven, eight and nine respectively. An updated GTAA is due for publication in early 2024.

During the 2022/23 monitoring year 0 permanent traveller pitches were granted planning consent.

Self-Build

The Self-build and Custom Housebuilding Act 2015 places a duty on local authorities to keep and publish a register of individuals and community groups (associations of individuals) locally who want to acquire land for self-build homes and to have regard to these registers in carrying out the following functions; planning, housing, the disposal of any land by the authority and regeneration.

Local authorities must give suitable development permission to enough suitable serviced plots of land to meet the demand for self-build and custom housebuilding in their area. The level of demand is established by reference to the number of entries added to an authority's register during a base period.

The first base period began on the day on which the register (which meets the requirement of the 2015 Act) was established and ended on 30 October 2016. Each subsequent base period comprises the 12 months beginning immediately after the end of the previous base period. Subsequent base periods therefore run from 31 October to 30 October each year. At the end of each base period, relevant authorities have three years in which to permission as many plots of land suitable for self-build and custom housebuilding as there are register entries for that base period.

At the close of the seventh base period ending 30 October 2022, there were 98 individuals recorded on the Council's self-build register of which 12 were added during the 12-month period (ending 30 October 2022). Between the end of the sixth base period, ending 30 October 2021, and the end of the seventh base period, ending 30 October 2022, planning permission was granted for 28 single residential units, including 16 provided through the conversion of existing buildings.

Employment

The total industrial and business land need outside the Derby Urban Area within South Derbyshire between April 2011 and March 2028 is 47.27ha. As at 31 March 2023, 46.98ha had been completed, a further 43.21ha had planning consent, 21.96ha was under construction and 6.71ha did not yet have planning consent but was allocated for industrial and business development in the Local Plan Part 1 (see Table 8). Gross employment land provision within the District, therefore, measured 118.86ha. Since April 2011, 24.77ha of established industrial and business land had been lost to other uses.

Table 6: Total Land and Floor Space Gained and Lost and Proportion of Gains on Previously Developed Land by Use Class 1 April 2022– 31 March 2023

Description		E(g)(I)	E(g)(ii)	E(g)(iii)	B2	B8	Mixed	Total

Total Losses since 1st April 2011	24.77

Retail and Town Centre

The Council currently monitors vacancy rates in Swadlincote Town Centre annually as part of the Council's town centre benchmarking scheme. The latest available data for the 2022/23 monitoring year is from October 2022.

At that point 187 retail, leisure, and office ground floor units were recorded for monitoring purposes in Swadlincote town centre of which 75 were Use Class E(a) retail units.

In total, 14 ground floor retail, office and leisure units were recorded as being vacant with a combined floor area of 2283 sqm, representing 7.48% of all such units and 4.85% of all such floorspace. The location of vacant units is shown in Fig. 1.

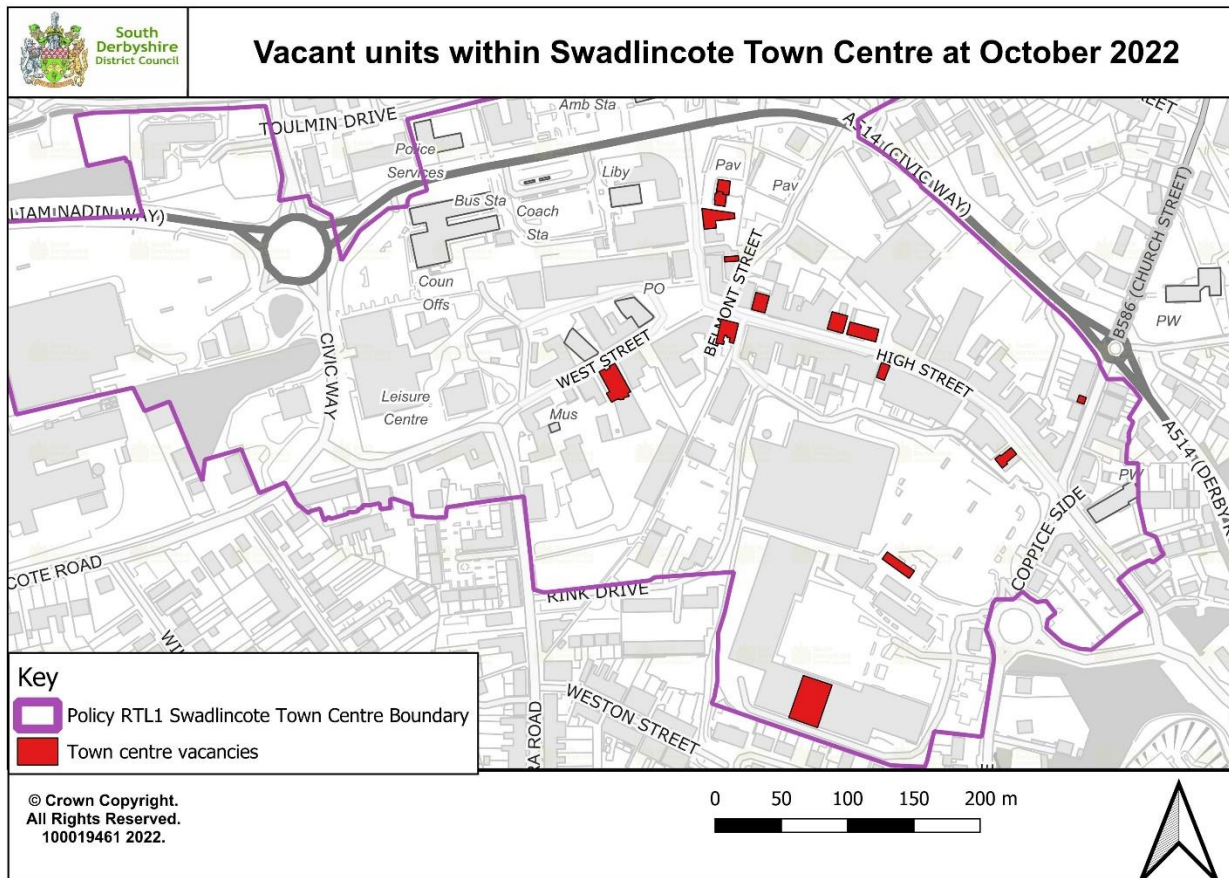

Figure 1: Vacant Units in Swadlincote as recorded in October 2022

Regeneration Brownfield Land Register

Regulation 3 of the Town and Country Planning (Brownfield Land Register) Regulations 2017 requires local planning authorities in England to prepare, maintain and publish registers of previously developed (brownfield) land by 31 December. The registers are intended to provide

Our Environment | Our People | Our Future

www.southderbyshire.gov.uk

information on sites that local authorities consider to be appropriate for residential development. Brownfield sites that meet the relevant criteria must be entered in Part 1 of brownfield land registers. Sites entered in Part 2 of the brownfield land registers are granted permission in principle. Regulation 17 requires local planning authorities to review their registers at least once a year. The published register for 2022 comprises 17 current sites, all contained within Part 1 of the register, with a total combined land area of 81.58ha. It may be viewed on the District Council website [here](#).

Infrastructure

On 1 September 2019, the Community Infrastructure Levy (Amendment) (England) (No. 2) Regulations 2019 came into force, requiring that all authorities in receipt of contributions received through planning obligations (also known as Section 106 contributions) must produce an annual Infrastructure Funding Statement (IFS). The fourth of these IFSs is to be published by 31 December 2023 relating to the previous financial year, i.e. the monitoring year to which this AMR relates. The IFS provides various breakdowns of the Section 106 monies, as is required by the Regulations and the IFS itself is available [here](#). During the 2022/23 monitoring year the **Cadley Urban Park, in Swadlincote** was completed and opened to the public.

Appendix A: Policy Monitoring (based on Monitoring and Implementation Tables for LPP1 and LPP2)

Indicator	Policy Number	Policy Name	Plan	Performance												
Spatial Strategy Policies																
Number of planning applications which go to appeal and are subsequently granted planning permission	S2	Presumption in Favour of Sustainable Development	LPP1	Three applications were allowed at appeal												
Net number of additional dwellings each year	S4	Housing Strategy	LPP1	1118 (net) additions. See main text for further information												
Five Year Housing Land Supply	S4	Housing Strategy	LPP1	See Housing Position Paper at Appendix B												
Annual net additional employment floor space and net employment land	S5	Employment Land Need	LPP1	Floor space and land, net of losses, delivered in the monitoring period were +22369 sqm and 8.81 ha respectively.												
Amount of vacant ground floor retail, office and leisure floorspace in Swadlincote Town Centre	S7	Retail	LPP1	14 by number of units (7.48% of all ground floor retail, leisure and office use) or 4.68% by floor area. See main text for further information												
Amount of new development granted within the Green Belt, including conversion, reuse of buildings and new buildings (excluding householder extensions)	S8	Green Belt	LPP1	Six applications for new development were granted in the Green Belt												
Settlement Development Policies																
Number of applications (full or outline on major sites) for market housing granted consent outside of the settlement boundaries	SDT1	Settlement Boundaries and Development	LPP2	There were none consented outside of settlement boundaries (and contrary to the development plan) in the monitoring period.												
Housing Policies																
Net additional dwellings by category of the settlement hierarchy	H1		LPP1	<table> <tr> <td>Derby UA</td> <td>443 dwellings</td> </tr> <tr> <td>Burton UA</td> <td>86 dwellings</td> </tr> <tr> <td>Swadlincote</td> <td>317 dwellings</td> </tr> <tr> <td>Key Service Villages</td> <td>252 dwellings</td> </tr> <tr> <td>Local Service Villages</td> <td>7 dwellings</td> </tr> <tr> <td>Rural villages /areas</td> <td>13 dwellings</td> </tr> </table>	Derby UA	443 dwellings	Burton UA	86 dwellings	Swadlincote	317 dwellings	Key Service Villages	252 dwellings	Local Service Villages	7 dwellings	Rural villages /areas	13 dwellings
