1		In Milton we have 2 nominated green spaces :				
		155 is the area opposite the Village Hall and the orchard behind the boundary wall of				
		Common Farm. When the planning permission was sought to develop Common Farm a large				
		number of people objected to the demolishing				
		of the wall and the orchard as this was seen to be changing the character of the Grade 2 listed				
		farm. Now that the farm has been developed into residential properties this is still				
		important. The orchard framed the buildings in their context of farm buildings and retaining it,				
		rather than converting it to a garden, keeps the sprit of a village made up of farms alive.				
		The verge adjacent to the wall is again key to retaining the village aspect and is regularly				
		used as a meeting place for events like village walks and stalls during the open garden event.				
		It is regularly maintained and improved by members of the village and is cherished by all				
		site 164 is again much loved by the village with a bench for walkers to rest on and is again				
		regularly maintained by members of the				
		village. Both sites now have planters provided by the parish council but again watered, and	See above, I am not clear what the			Both sites should be retained to ensure the character of the village

		Summary - concerned regarding the Council's				
		methodology which has informed the selection				
		of sites. In consideration of whether a site is considered to be 'an extensive tract of land'				
		the LGSP states "It is considered that any sites in excess of 5 hectares could constitute an				
		extensive tract of land". The threshold of Sha is concerning as sites smaller in size (i.e. 4ha)				
		would be considered acceptable in terms of meeting the third test. In the example				
		provided, it is our belief that a site of this scale should be considered an extensive tract of				
		land. Furthermore, by selecting such a high				
		threshold it would set a precedent that such a figure would be appropriate for LGS				
		designation and may have implications for local communities progressing neighbourhood				
		plans selecting sites which are extensive tracts of land which could instead be better served to			Summary - Gladman recommend that the Council revises its methodology in
